

# TIME 2016 – Mexico City

## Proceedings

### Contents

#### Keynotes

St. Hegedus

*Are we Preparing Students for 2075* pdf

S.V. Joubert

*The Influence of TIME on my Teaching and Research* pdf

#### Presentations

M. Beaudin, A. Bergeron-Brlek, L.-X. Proulx

*Implicit Curves and Tangent Lines with TI-Nspire CX CAS* pdf

M. Beaudin, A. Bergeron-Brlek, L.-X. Proulx

*Implicit Curves and Tangent Lines with TI-Nspire CX CAS* tns

M. Beaudin, F. Henri

*Solving Third Degree Polynomial Equations* pdf

M. Beaudin, F. Henri

*Solving Third Degree Polynomial Eq-Short-Plus\_Nspire* pptx

J. Böhm

*Wonderful World of Pedal Curves* pdf

J. Böhm

*Solving Practical Problems in Physics (Electricity & Magnetism) using CAS* pdf

J.-J. Dahan

*Investigating stars in 2D and 3D with DGS and CAS  
(a model of research work at alle levels)* pdf

R. Elizondo, A. Hernández Sólis

*Hypothetical Learning Trajectories that use Digital Technology  
to Tackle an Optimization Problem* pdf

W. Ellis, W.C. Bauldry, M.J. Bosse, S.H. Otey

*Employing Technology to Visualize Complex Roots of Real Polynomials* pdf

A.H. Flores, A. Gómez R., G.Xochitl Chavéz P.

*TI-Nspire as a Technological Support in Learning Conics:  
the Case of Ellipse* pdf

A.B. Garcia, J.M. Castillo Sedano, J.R. Jiménez Rodríguez <i>Development of the Variational Thought in Secondary Students</i>	pdf
R. Heinrich <i>Mathematics Lessons and Classroom Examples, Inspired by Articles in Newspapers</i>	pdf
H. Heugl <i>The change from a calculation oriented to a problem solving oriented mathematics education supported/caused by technology</i>	pdf
J. López Garcia, J.J. Jiménez Zamudio <i>Study of a Nonlinear Oscillator with CAS through Analytical, Numerical and Qualitative Approaches</i>	pdf
J. López Garcia, J.J. Jiménez Zamudio, M.E.C. Díaz Velarde <i>Analysis of Non-Analytical Smooth Functions using CAS</i>	pdf
M. Martínez Ortega <i>Meanings associated to the Graphic of a Sinusoidal Function</i>	pdf
K. Pineau, H. Flores, F. Caron, A. Gómez, X. Chávez <i>L'Hospital's Weight Problem: Crossing the Border</i>	pdf
M. Santacruz, A.I. Sacristán <i>An Exploratory Study of the Use of Digital Resources in Math Class: Orchestration and Mathematical Workspaces</i>	pdf
K. Schmidt <i>Teaching Mathematics and Statistics Using a CAS and a Statistical Software Package – Findings from Student Surveys</i>	pdf
R.E. Valdez Vega, V. Larios Osorio <i>Influence of GeoGebra Learning Analytic Geometry</i>	pdf
